

BioItaly Investment Forum National Roadshow

Over the course of 2017/2018, Assobiotec-Federchimica, SPRING and Intesa Sanpaolo will organize a national roadshow to introduce BioItaly Investment Forum to enterprises and researchers and collect applications from the different regions. Each leg will be organized in partnership with the **different local partners**. If you are interested in presenting your company/your business plan in the different legs of the national roadshow, please refer to the contacts with each of the local partners, that you will find here below. The projects considered to be the most interesting from a local jury will be admitted directly to the boot-camp.
